Agenda Item Number: 5.
Agenda Title: Election of Chairs & Vice-Chairs for 2025 & 2026
Presenter(s): RTCC Chair
RTAC Chair

Summary of Information:

ARPO Bylaws state the officers of the RTCC and the RTAC consist of a Chair and Vice Chair, and are to be selected by majority vote for a term of two years. The officers must be selected at the first meeting of every odd calendar year, and there is no limit as to how many consecutive terms they can serve.

***Note:** RTAC officers must be County Elected Officials, as only County members are permitted to vote on the RTAC, according to the ARPO Bylaws.*

Current officers for the RTCC:

Rhett White, Chair – Town Manager, Town of Columbia
Shelley Cox, Vice-Chair – Director of Planning & Inspections, Pasquotank County

Current officers for the RTAC:

Lloyd Griffin III, Chair – County Commissioner, Pasquotank County
Randal Mathews, Vice-Chair – County Commissioner, Hyde County

Staff Recommendations/Motions:

1. Nominations for Chair of the RTCC for 2025 & 2026
 2. Nominations for Vice-Chair of the RTCC for 2025 & 2026

 1. Nominations for Chair of the RTAC for 2025 & 2026

RTCC & RTAC MEETINGS**

Minutes of the Rural Technical Coordinating Committee (RTCC) Meeting – 10:00 AM

The RTCC meeting could not be held due to lack of quorum.

Presentations and Updates

<u>NCDOT Division 1:</u>	Chris Slachta, Division Planning Engineer
<u>NCDOT Ferry Division:</u>	Jed Dixon, Director
<u>NCDOT TPD:</u>	Behshad Norowzi, Coastal Plains Group Supervisor Wongoo Lee, Transportation Engineer II Michael Raynor, Transportation Engineer I
<u>Albemarle RPO:</u>	Sam Singleton, Interim ARPO Staff

Minutes of the Rural Transportation Advisory Committee (RTAC) Meeting – 11:06 AM

Call to Order

The Albemarle RPO Rural Transportation Advisory Committee (RTAC) met in regular session on Wednesday, January 22, 2025. The meeting was held in virtual format via Zoom. The RTAC meeting was opened and called to order by RTAC Chairman Lloyd Griffin III at 11:06 AM.

Roll Call

<u>Voting Members:</u>	Chairman Lloyd Griffin III, Pasquotank County; Vice-Chairman Randal Mathews, Hyde County; Tiffney White, Camden County (alternate); Larry McLaughlin, Chowan County; Carol Phelps, Washington County
<u>Non-Voting Members:</u>	Monica Thibodeau, Duck; Paula Sherlock, Southern Shores
<u>Staff:</u>	Sam Singleton, Mid-East Commission
<u>Others:</u>	Win Bridgers, NCDOT Division 1; Chris Slachta, NCDOT Division 1; Jed Dixon, NCDOT Ferry Division; Behshad Norowzi, NCDOT TPD; Wongoo Lee, NCDOT TPD; Michael Raynor, NCDOT TPD; Roy Bruce, NC Turnpike Authority; Kevin Howard, Chowan County; Rebecca Gay, Currituck County; David Clegg, Tyrrell County; Joe Costello, Nags Head; Wes Haskett, Southern Shores; Bryant Buck, Mid-East Commission; Pat Harris, Mid-East Commission

**ALBEMARLE RURAL PLANNING ORGANIZATION
THURSDAY, JANUARY 22, 2025
RTCC & RTAC MEETINGS**

Ethics Awareness & Conflict of Interest Reminder

Sam Singleton read the ethics awareness and conflict of interest reminder (G.S. 138A-15 (e)) to both committees. No conflicts were disclosed.

Election of Chair & Vice-Chair for 2025 & 2026

Sam Singleton said that the ARPO Bylaws require the RTAC to have a Chair and Vice-Chair, which are to be selected by majority vote for a term of two years. Mr. Singleton said that the Chair and Vice-Chair must be selected at the first meeting of every odd calendar year, and that there is no limit as to how many consecutive terms they can serve. Mr. Singleton noted that the RTAC Chair and Vice-Chair must be County Elected Officials, as only County RTAC members are permitted to vote.

Chairman Griffin said that the RTCC Chair typically conducts elections for RTAC Chair and RTAC Vice-Chair. Chairman Griffin said that due to the absence of the RTCC Chair, the elections for 2025 & 2026 RTAC Chair and Vice-Chair will need to be held at the next regular meeting.

Approval of Previous Meeting Minutes

Vice-Chairman Mathews made a motion to approve the August 21, 2024 regular meeting minutes. Carol Phelps seconded the motion. With no further discussion, the motion passed unanimously.

Approval of Draft FY 2025-2026 PWP

Sam Singleton said that the Planning Work Program (PWP) is a funding contract between the Albemarle Rural Planning Organization and the North Carolina Department of Transportation, and noted that the PWP lists planning priorities anticipated by ARPO throughout the fiscal year and outlines expenses needed for certain work tasks.

Mr. Singleton stated that staff had prepared that draft PWP for Fiscal Year 2025-2026, and that it requires preliminary approval from the RTAC before being submitted to the NCDOT Transportation Planning Division for approval. Mr. Singleton said that the PWP will be presented at the next ARPO Board meetings for final adoption if it is approved by the NCDOT Transportation Planning Division.

Vice-Chairman Mathews made a motion to preliminarily approve the draft FY 2025-2026 Planning Work Program for the Albemarle RPO. Carol Phelps seconded the motion. With no further discussion, the motion passed unanimously.

Public Comments

No public comments.

**ALBEMARLE RURAL PLANNING ORGANIZATION
THURSDAY, JANUARY 22, 2025
RTCC & RTAC MEETINGS**

Adjournment

Upon motion by Carol Phelps, seconded by Vice-Chairman Mathews, the RTAC voted unanimously to adjourn at 11:21 AM.

Respectfully Submitted,

Sam Singleton, Interim Secretary
Albemarle Rural Planning Organization

**Albemarle Rural Planning Organization
4/23/2025 Board Meetings
Agenda Abstract**

Agenda Item Number: 7.
Agenda Title: Adoption of FY 2025-2026 PWP
Presenter(s): RTCC Chair
RTAC Chair

Summary of Information:

The Planning Work Program (PWP) is a funding contract between the Albemarle Rural Planning Organization (ARPO) and the North Carolina Department of Transportation (NCDOT). The PWP lists planning priorities anticipated by ARPO throughout the fiscal year, and outlines expenses needed for certain work tasks. The North Carolina Department of Transportation has allocated **\$183,500** for the Fiscal Year 2025-2026 Albemarle RPO PWP:

80%	Federal State Planning & Research (SPR) Funds	\$146,800
15%	State Local Match Assistance per NCGS 136-214	\$27,525
5%	Local Match (Shared by all 10 ARPO Counties)	\$9,175

The draft FY 2025-2026 PWP was approved by the RTAC on January 22, 2025. Following this, ARPO staff submitted the draft PWP to the NCDOT Transportation Planning Division for approval, which has since been given.

If adopted, the FY 2025-2026 PWP will become effective July 1, 2025.

Staff Recommendations/Motions:

1. RTCC adoption of FY 2025-2026 PWP
 2. RTAC adoption of FY 2025-2026 PWP
-

STATE OF NORTH CAROLINA
DEPARTMENT OF TRANSPORTATION

ROY COOPER
GOVERNOR

J.R. "JOEY" HOPKINS
SECRETARY

November 20, 2024

Mr. Michael Ervin, Executive Director
Albemarle Commission
512 S. Church Street
Hertford, North Carolina 27944

Subject: Albemarle Rural Planning Organization FY 2026 allocation

Dear Mr. Ervin:

The North Carolina Department of Transportation has allocated Federal SPR (State Planning and Research) funds as detailed in the table below:

FY 2026 Albemarle RPO Allocation				
5% local match	15% State funds (Local Match Assistance per NCGS 136-214)	80% Federal SPR funds	Total maximum reimbursable amount from NCDOT (State and Federal)	Total not-to-exceed work plan Federal + State+ local match
\$9,175	\$27,525	\$146,800	\$174,325	\$183,500

The funds are available on a reimbursable basis according to an 80/5/15 cost share and are expected to be matched by a minimum of 5% local funds.

Reimbursement for planning expenses should be made through the invoice submittal procedure as outlined by the RPO Administrative Procedures. Reimbursements will only be made for transportation planning expenses incurred in executing the work tasks described in your approved FY 2026 PWP, which is due by May 16, 2025.

If you have any questions or concerns, please feel free to contact me at agpatel1@ncdot.gov, (919)-707-0901.

Sincerely,

Alpesh Patel

DRAFT

Fiscal Year 2025-2026 Planning Work Program Albemarle Rural Planning Organization

Summary

The Planning Work Program (PWP) is a funding contract between the Albemarle Rural Planning Organization (ARPO) and the North Carolina Department of Transportation (NCDOT). The Plan lists planning priorities anticipated by the ARPO during the next fiscal year, and outlines expenses needed for certain work tasks. The PWP is reviewed, and approved by the ARPO Rural Technical Coordinating Committee (RTCC), Rural Transportation Advisory Committee (RTAC), and the NCDOT Transportation Planning Division. Revisions to the PWP are allowed if the ARPO needs to make significant changes to the overall budget or a specific work task, however, no additional dues will be requested from County members. An approved PWP is required for the Lead Planning Agency, the Albemarle Commission, to be reimbursed for work task expenses incurred by the ARPO.

I. Data Collection and Assessment

For FY 2026, ARPO staff will continue to monitor compliance with the Title VI program, and will maintain socioeconomic and demographic data for member counties. ARPO staff will also continue to collect AADT data throughout the region for traffic volume mapping. Additionally, ARPO staff will collect and assess highway and non-highway data for use in developing the ARPO's Prioritization 8.0 project submittal list, and the identification of potential safety projects.

II. Transportation Planning

Comprehensive Transportation Plans (CTPs) have been drafted and adopted for all ten counties within ARPO. Funding has been included in this category for the development of the Camden-Currituck-Pasquotank Regional CTP.

ARPO staff will review the final results of Prioritization 7.0. Staff will work with RTCC & RTAC members, local governments, airports, transit agencies, the NCDOT Ferry Division, and NCDOT Division 1 on the development of ARPO's Prioritization 8.0 project submittals. Once the ARPO's project submittal list is adopted by the RTCC & RTAC, staff will submit each project into NCDOT's SPOT Online software. Staff will review the ARPO's Local Input Point Assignment Methodology for Prioritization 7.0, and will coordinate with RTCC & RTAC members on any potential changes to the methodology for Prioritization 8.0. Depending on the final schedule for Prioritization 8.0, staff may begin working with RTCC & RTAC members on Local Input Point Assignments for ARPO projects competing in the Regional Impact category in Prioritization 8.0.

ARPO staff will review the 2026-2035 State Transportation Improvement Program (STIP) with Division 1 and report out STIP funded projects to the RTCC and RTAC. ARPO Staff will also attend required merger team meetings and any local government and/or public meeting for projects in the merger process. Merger is a process to streamline the project development and permitting processes. Stakeholders include the NCDOT, USACE, NCDENR (DWQ, DCM), and FHWA. The Merger process provides a forum for appropriate agency representatives to discuss and reach consensus on ways to facilitate meeting the regulatory requirements of Section 404 of the Clean Water Act during the NEPA/SEPA decision-making phase of transportation projects.

DRAFT

Fiscal Year 2025-2026 Planning Work Program Albemarle Rural Planning Organization

The ARPO Coordinator is a member of the North Carolina Association of Rural Planning Organizations (NCARPO). The Coordinator serves on the Administrative Documents Committee, and as the MPO Liaison, the Emerging Technologies Liaison, and Legislative Liaison. ARPO staff will continue to provide updates to the RTCC and RTAC on transportation-related legislation, and will continue to attend and report on the following: Highway 17/64 Association meetings, Southern Albemarle Association meetings, NCARPO quarterly meetings and committee meetings, ICPTA Board meetings, and the NCAMPO annual conference.

III. Administration of Transportation Planning and Policies

As a requirement of funding, the ARPO Director will prepare the PWP for FY 24-25, prepare quarterly invoice and progress reports for FY 24-25, coordinate RTAC Ethics requirements, update the ARPO Facebook page and web page on a regular basis, prepare and distribute meeting agendas, draft meeting minutes, and continue to respond to member requests. The ARPO Director will also continue to work with the State Ethics office regarding RTAC member Ethics forms, and provide weekly updates regarding transportation related news in our region.

IV. Direct Costs

These are regular costs for administration of the RPO program not covered in Indirect costs. These include, computer equipment, printer cartridges, printers, and other office supplies not covered under Indirect charges. Direct costs also include advertising, mileage, hotel, and meal costs and registration and training costs for the RPO Director.

V. Indirect Costs

These costs include a portion of the Albemarle Commission staff salaries, workman's compensation, unemployment insurance, contracted services for IT, finance, and legal, general office supplies, rent for facilities, meeting room equipment, and staff development programs.

PLANNING WORK PROGRAM**Narrative****ALBEMARLE RURAL PLANNING ORGANIZATION****I. DATA COLLECTION AND ASSESSMENT****I-1 DATA COLLECTION AND ASSESSMENT** \$ 15,000.00

I-1.1	Highway
	Collect AADT and crash data throughout the region. Assess data and use to develop and/or identify potential P8.0 and safety projects.
I-1.2	Other Modes
	Collect data for non-highway modes to develop and/or identify potential P8.0 and safety projects. ARPO Mini Grants.
I-1.3	Socioeconomic
	Maintain socioeconomic data for member counties.
I-1.4	Title VI
	Collect data as needed to ensure compliance with ARPO's Title VI plan.

II. TRANSPORTATION PLANNING**II-1 COMPREHENSIVE TRANSPORTATION PLAN (CTP) DEVELOPMENT** \$ 25,000.00

II-1.1	Develop CTP Vision
	Begin development of CTP Vision(s) for Camden, Currituck, and Pasquotank Counties.
II-1.2	Conduct CTP Needs Assessment
	Begin work on CTP Needs Assessment for Camden, Currituck, and Pasquotank Counties.
II-1.3	Analyze Alternatives and Environmental Screening
	Begin preliminary work on analyzing alternatives for Camden, Currituck, and Pasquotank Counties.
II-1.4	Develop Final Plan
II-1.5	Adopt Plan

II-2 PRIORITIZATION \$ 26,050.00

II-2.1	Project Prioritization
	Analyze results of Prioritization 7.0. Review CTP recommendations for all member counties. Potentially hold STI training session/workshop with RTCC & RTAC members and local governments. Coordinate with RTCC & RTAC members, local governments, airports, transit systems, NCDOT Ferry Division, and NCDOT Division 1 on the development of ARPO's P8.0 project submittal list. Submit projects into SPOT Online. Review P7.0 Local Input Point Assignment Methodology and coordinate with RTCC & RTAC members on any potential updates/changes for P8.0. Begin P8.0 Regional Impact Local Input Point assignments (if phase begins before the end of FY 2026).

II-3 PROGRAM AND PROJECT DEVELOPMENT \$ 12,350.00

II-3.1	STIP Participation
	Review, and monitor changes to the 2026-2035 STIP. Coordinate with Division 1, STIP Unit and SPOT Office on any actions that need to be taken by ARPO. Keep RTCC & RTAC members updated on all matters relating to the STIP and ARPO projects within it.
II-3.2	Merger / Project Development

**FY 2026 (July 1, 2025-June 30, 2026)
PLANNING WORK PROGRAM**

DRAFT

**Narrative
ALBEMARLE RURAL PLANNING ORGANIZATION**

Attend required merger meetings. Attend any local government and/or public meetings for projects in the merger process.

II-4 GENERAL TRANSPORTATION PLANNING	\$ 25,260.00
---	--------------

II-4.1 Regional and Statewide Planning	
---	--

Attend and/or Participate on the following: NCARPO Quarterly Meetings, NCARPO committee meetings, NCAMPO Annual Conference, Highway 17/64 Association meetings, Southern Albemarle Association meetings, ICPTA Board meetings, transit workshops/meetings. Draft 2026 Legislative Agenda for ARPO.

II-4.2 Special Studies, Projects and Other Trainings	
---	--

Attend and/or provide input for any project express designs or feasibility studies.

II-4.2.1 Special Study #1 - insert name of consultant-led study here	\$ -

Alligator River Bridge Replacement (Tyrrell–Dare Counties)

The replacement of the aging Lindsay C. Warren Bridge on US-64 is underway as of early 2025. The new high-rise fixed-span bridge will eliminate swing-span delays and a 99-mile detour during outages. Backed by \$110 million in federal funding and additional state support, this \$290 million project will enhance travel safety and reliability between the mainland and the Outer Banks. It also includes broadband installation along US-64 to improve regional connectivity. The bridge is expected to open by 2026–2027 and is seen as a critical investment in mobility, emergency access, and economic growth for northeastern North Carolina.

Mid-Currituck Bridge (Currituck County): Planning is ongoing for the proposed 7-mile toll bridge connecting US-158 to NC-12 near Corolla, aimed at easing summer congestion and improving hurricane evacuation routes. Although a recent \$425 million federal grant application was unsuccessful, NCDOT and the Turnpike Authority are pursuing other funding sources. Permitting is moving forward, with a public hearing held in February 2025 and environmental reviews underway. While right-of-way acquisition and final design are on hold pending funding, the project remains shovel-ready and continues to receive strong regional support.

NC 12 Coastal Resiliency & Ocracoke Access (Dare and Hyde Counties): NCDOT is continuing its efforts to address vulnerable areas along NC 12, particularly through the Pea Island National Wildlife Refuge and on Ocracoke Island. A \$1.8 million federal grant was awarded in 2024 to study long-term solutions such as elevated causeways or realignments to ensure reliable access to Hatteras Island. Although the study is temporarily delayed due to a federal funding pause, maintenance work continues. In early 2025, crews reinforced dunes and berms on Pea Island ahead of the tourist season. Over the past five years, more than \$5 million has been invested in sand removal and dune restoration along this corridor. Meanwhile, tidal flooding on Ocracoke Island has caused multiple closures, prompting new emergency repairs and sandbag installations. Both areas remain top priorities for resiliency planning, with future investments likely needed to maintain access amid rising seas and frequent storm impacts.

Other Regional Projects and Initiatives: Across the Albemarle RPO area, several roadway improvements -such as resurfacing, bridge rehab, and intersection upgrades - are underway. Safety programs like Vision Zero and Safe Routes to School are active, and future rounds of Safe Streets for All funding may benefit local communities. ICPTA is set to receive new transit vehicles, and on-demand transit pilots are being encouraged to boost rural mobility. NCDOT's Complete Streets policy continues to support bike and pedestrian elements in small-town projects. multimodal and rural projects, reinforcing efforts to enhance safety, access, and resilience across the region.

“Connecting people, products and places safely and efficiently with customer focus, accountability and environmental sensitivity to enhance the economy and vitality of North Carolina....”

- NCDOT Mission Statement

FHWA/FTA News

Funding Allocations from Federal Transit Administration (FTA)

The FHWA has awarded the N.C. Department of Transportation a \$25 million grant under the new Wildlife Crossings Pilot Program to install multiple wildlife underpass structures and fencing along US-64 in Dare County's Alligator River National Wildlife Refuge [highways](#).

This project will help prevent collisions with wildlife and support the endangered red wolf population in the Albemarle-Pamlico Peninsula [highways](#).

In late 2024, FHWA (as part of USDOT) selected 16 projects nationwide – including the Dare County wildlife crossings – in its first round of Wildlife Crossing grants funded by the Bipartisan Infrastructure Law.

However, as of early 2025 the federal government has temporarily paused disbursement of some new infrastructure grants pending a review of spending priorities. This pause affected several NCDOT projects in the Albemarle region – notably the \$110 million federal grant for the Alligator River Bridge replacement, the \$25 million US-64 wildlife crossing project, and a \$1.8 million resiliency planning grant for N.C. 12 – all of which have been put on hold by USDOT for reevaluation.

Federal Transit Administration (FTA) Updates:

The FTA awarded NCDOT a \$400,000 grant to study a second ferry maintenance facility, which would expand capacity beyond the existing Manns Harbor yard.

North Carolina transit agencies also saw a 25% funding increase through the Bipartisan Infrastructure Law, with over \$45 million directed to rural and small urban systems. These funds are helping Albemarle-area transit providers upgrade vehicles, hire staff, and explore innovations like on-demand and zero-emission services.

Additionally, NCDOT added two new “River Class” ferries in 2024 and released the 2025 ferry schedule, including continued seasonal service for the Ocracoke Express.

Theresa 'Tess' Judge

Division 1

Theresa "Tess" Judge joined the N.C. Board of Transportation in April 2025 and represents Division 1.

She is a current resident of Kitty Hawk. After a lengthy career in hospitality management before retiring in 2020, Judge has been active in various volunteer and community activities, including roles within her church and diocese.

Judge has had extensive involvement on numerous boards such as the East Carolina Health Foundation, N.C. Marine Industrial Park Authority, Outer Banks Chamber of Commerce, Outer Banks Community Foundation, Outer Banks Hospital Board of Directors and many others. She has also co-chaired North Carolina's State of the Child initiative multiple times.

Born in Charlottesville, Va., she and her late husband Warren raised four children in Jamestown, N.C., before moving to the Outer Banks in 1989.

Subject: 2025 Multimodal Planning Grant Applications
Attachments: Multimodal Planning Grant Program Overview (1).pdf; Multimodal Planning Program Frequently Asked Questions.pdf

Good morning,

Applications are now being accepted for the NCDOT Integrated Mobility Division's Multimodal Planning Grant Program. Any municipality is eligible to apply for a bicycle, pedestrian, or multimodal network plans. Municipalities with populations less than 10,000 are also eligible to apply for a project acceleration study. Counties with populations less than 100,000 may apply for bicycle, pedestrian, or multimodal network plans on behalf of incorporated communities and/or unincorporated areas within their jurisdiction. This year's applications are also open to NC Colleges and Universities.

The RPO cannot directly apply for this grant; however, staff is more than happy to assist with applications. Note: a resolution of support from the RPO is expected as part of the application package from a county or municipality.

I've attached an overview of the program, as well as a list of FAQs. For more information about the program, and steps on how to apply, please visit: <https://connect.ncdot.gov/municipalities/PlanningGrants/IMD-Multimodal-Planning-Program/Pages/default.aspx> . The application submission deadline is **Monday, May 12th at 5:00 PM**.

If anyone has any questions, please don't hesitate to call or email me.

Thanks!

Sam Singleton

NCDOT Multimodal Planning Grant Initiative Overview

Program Background

Communities throughout North Carolina have begun to place more emphasis on providing facilities for travel options beyond single-occupancy vehicle travel. A desire for better modal choices, the demand for more walkable and bikeable communities, and a focus on smart growth initiatives have combined to highlight the need for better, more complete multimodal, bicycle and pedestrian transportation systems. Comprehensive planning documents are an integral part of developing these systems and can guide both local and state efforts to improve conditions for multimodal connections and bicycling and walking.

Figure 1 NCDOT Bicycle and Pedestrian Planning Studies Outcomes, 2011-2020

To encourage the development of comprehensive local bicycle plans and pedestrian plans, the NCDOT Integrated Mobility Division (IMD) and the Transportation Planning Division (TPD) created a matching grant program to fund plan development. This program was initiated through a special allocation of funding approved by the North Carolina General Assembly in 2003 along with federal funds earmarked specifically for bicycle and pedestrian planning by the TPD. The planning grant program was launched in January 2004 with 244 plans awarded through 2021. Between 2011-2020, 112 municipal and county plans have been completed, 250 projects submitted through STI Prioritization for funding, and 79 projects funded in the 2020-2029 State Transportation Improvement Program. A total of approximately \$7.5 million has been allocated.

In 2022, the program underwent some changes to better accommodate the shifting needs in North Carolina and to better integrate public transportation and active transportation modes as part of multimodal planning studies. This document is intended to guide grant applicants in identifying the types of planning studies that might be the best fit for them.

Who Can Apply

The following local government entities are eligible to apply for multimodal planning grants:

- Any North Carolina municipality is eligible to apply for a bicycle, pedestrian, or multimodal planning grant
- Municipalities less than 10,000 in population are also eligible to apply for a project acceleration study
- Counties with population less than 100,000 may either apply for County-wide plan, OR apply on behalf of incorporated or unincorporated communities within their jurisdiction for a bicycle, pedestrian or multimodal planning study.
- As of the 2025 program cycle: universities and colleges are eligible to apply for multimodal plans and bicycle and/or pedestrian plans.

Due to the limited amount of funding, the following entities are not eligible to apply for a multimodal planning grant:

- Counties with populations greater than 100,000
- Other entities such as Business Improvement Districts
- Bicycle, pedestrian, and transit advocacy groups (although those organizations may provide a letter of support for a municipality or county applying for a grant)
- Metropolitan Planning Organizations (MPOs) and Rural Planning Organizations (RPOs) may not apply for this type of multimodal planning grant; however a resolution of support from the appropriate MPO or RPO is expected as part of the application package from a county or a municipality

Applications submitted and received for previous grant cycles do not carry over — municipalities/counties must re-apply each year to be considered within the current process. Please note that all applications and relevant documents will be accepted online at the [program webpage](#).

A comprehensive **Bicycle or Pedestrian Network Plan** allows a municipality to set a vision for bicycle or pedestrian transportation in their community, plan for a bicycle or pedestrian network, and identify priority bicycle or pedestrian projects in addition to policy recommendations. Municipalities (and counties with populations of less than 100,000) who currently have bicycle plans and/or pedestrian plans, either previously funded through this grant program or otherwise, may also apply to update their plan provided it is at least five years old. Smaller municipalities (below 10,000 population) are eligible to apply for a joint bicycle and pedestrian plan, but still have the option of applying for a stand-alone pedestrian or a stand-alone bicycle plan.

Municipalities/counties with populations of 10,000 and over may choose to apply for funding to undertake either a multimodal plan, a bicycle plan, or a pedestrian plan in any given fiscal year. Municipalities/counties may apply for funding for the other type of plan in subsequent years. Funding is intended to support the development of a multimodal network plan or a comprehensive bicycle or pedestrian transportation plan. If neighboring municipalities wish to file a joint application, please contact IMD for instructions and guidance.

Multimodal Network Plans are intended to go a step further beyond the combined bicycle and pedestrian plans to take into account the interaction between existing transit systems and bicycle and pedestrian transportation networks. A multimodal network plan is not intended to replace a Transit Development Plan/Transit Master Plan that would evaluate potential changes to transit routes and other major transit operations changes. A multimodal network plan is also not meant to replace a Comprehensive Transportation Plan or address roadway capacity issues and roadway mobility recommendations.

In addition to the traditional bike and pedestrian plans and multimodal network plans, IMD also offers funding support for **Project Acceleration Studies**. Available for municipalities with a population of 9,999 or less, these abbreviated plans offer a shorter study schedule and primarily focus on priority project identification and project implementation. Project acceleration plans are intended to evaluate potential red flags and barriers to project implementation and ensure that the top priority projects identified have the required data needed to submit a project for funding through STI prioritization.

Selection of these planning projects will be based on a competitive review process. However, an effort will be made to award grants based not only on the merit of the proposal but to achieve statewide geographic distribution as well. Consideration will be given to funding a cross-section of municipality types.

The eligibility criteria for the plan types are summarized in the table below.

Table 1: Types of Planning Studies and Eligible Applicants

Jurisdiction Type	Stand-Alone Pedestrian Plan or Bicycle Plan or Plan Update	Multimodal Network Plan	Project Acceleration Study
Town or City with Population <5,000	V	V	V
Town or City with Population between 5,000 and 9,999 and no transit	V	V	V
Town or City with Population between 5,000 and 9,999 and existing transit	V	V	V
Town or City with Population >10,000	V	V	
Counties <100,000	V	V	
Counties <100,000 with fixed or deviated fixed transit		V	

How Does a Plan Help Your Community?

Planning is the first step of the implementation process for all transportation projects. A community seeking to implement a multimodal improvement project would typically undertake the following steps:

- Planning: a Comprehensive Transportation Plan, Metropolitan Transportation Plan, multimodal network plan or bicycle and pedestrian plan are some examples of planning studies
- Prioritization for Funding: this could include an application for state funding through STI Prioritization, applying for funding allocated at a regional level such as STBG-DA or other discretionary funds through an MPO, or allocating local funding sources
- Programming: once funding is identified, a project needs to be reflected or programmed in the State Transportation Improvement Program (STIP) or local Capital Improvement Program (CIP) with funding source and timeframe noted
- Project Development: this step involves project design and environmental permitting, building up to right-of-way acquisition phase
- Implementation: bidding and construction

See Figure 2 below illustrating some of the generalized steps in the planning-to-implementation process. For a more detailed description of project development process in North Carolina, please refer to the latest NCDOT Integrated Project Delivery (IPD) guidance¹.

Figure 2: From Planning to Implementation

While transportation planning has traditionally focused on planning for vehicles and reducing congestion, creating a multimodal plan allows a community to focus on planning for pedestrians, bicyclists, and transit. In a multimodal plan, a community sets out its vision for enhancing its transportation network across all modes to improve access, mobility, and safety for pedestrians, bicyclists, and transit users of all ages and abilities. In the plan, this vision is supported by mapping a multimodal network and by identifying high priority multimodal projects in the community.

¹ NCDOT Integrated Project Delivery (IPD) Project Delivery Network, June 2021 version available at [NCDOT ProjectDeliveryNetwork Version 2.0.pdf](#). Later versions may be available at the time of the grant application cycle.

The local agency can then work with its Metropolitan Planning Organization (MPO) or Rural Planning Organization (RPO) to submit identified multimodal projects to the state prioritization process (Strategic Prioritization (STI) or SPOT) for funding. The Strategic Prioritization Process is a data-driven method the state uses to prioritize transportation projects, and it is used to develop the State Transportation Improvement Program (STIP) which is a programmed list of projects that will be funded across the state during a 10-year period. Apart from seeking funding in the STIP through STI Prioritization, a local government project sponsor may also have the option to apply for locally-administered federal grant funding sources such as STBG-DA (Surface Transportation Block Grant-Directly Attributable) or CMAQ (Congestion Mitigation and Air Quality Improvement Program) through the regional MPO process. And some bicycle, pedestrian, and transit stop improvement projects may be funded through local funding sources including Powell Bill funding amounts passed on to municipalities from the state, local transportation bond referendums, Capital Improvement Programs, or additional sources such as economic development grants, a portion of local hotel/motel occupancy tax, or with support from public health foundations and other community non-profit foundations.

As of 2019, NCDOT updated its Complete Streets Policy to require planners and designers to consider and incorporate multimodal facilities in the design and improvement of all appropriate transportation projects in North Carolina. This policy update means that when a roadway project is being developed, planned multimodal recommendations for the corridor must be considered for inclusion. The jurisdiction's adopted Comprehensive Transportation Plan (CTP) is considered the primary multimodal plan, but locally adopted plans, like multimodal network plans and bicycle and pedestrian plans, are also considered. Localities with existing multimodal plans have an advantage in coordinating complete streets improvements on roadway projects because they have already identified what types of multimodal facilities or accommodations they would like and in which locations.

What is the Right-Sized Plan for My Community?

To help navigate the plan types available through this program, a brief overview of each plan type, which types of communities it might be a good fit for, and end products are outlined below. Please refer to Table 1 above for a summary of what communities may be eligible for what types of plans. Some communities may benefit from multiple plan types, in which case they should choose the plan type that meets the community's greatest needs. A multimodal network plan is considered to be the preferred plan type for communities where existing transit is present, and it is generally recommended that a community completes a multimodal network plan before undertaking more narrowly focused plans.

Plans Types

Multimodal Network Plan

What is it? A comprehensive multimodal network plan allows a municipality to set a vision for multimodal transportation in their community, plan a multimodal network, and identify priority multimodal projects. Creation of a multimodal network plan is the first step to implementation of bicycle, pedestrian, and transit improvements and fosters a more walkable, bikeable and transit-friendly environment.

How is it helpful? Having a plan for a multimodal network and identified projects allows the municipality to better communicate and coordinate their multimodal needs with regional planning organizations and NCDOT during transportation planning and project development.

Who is it for? This type of plan is a good option for municipalities that do not have an existing multimodal plan or would like to update their previous multimodal or bicycle and pedestrian plan.

Products:

- List of short-term and long-term multimodal improvements and implementation plan
 - Improvements could include point projects such as pedestrian crossing improvements and bus stop improvements
 - Linear project recommendations could include sidewalk improvements, shared-use path improvements and on-road bicycle improvements
- Multimodal network map
- Cutsheets for priority projects with additional detail and planning level cost estimates for top 4-6 projects

When to choose this type of plan? A local government would pursue a multimodal network plan rather than a bicycle or pedestrian plan when fixed route or deviated fixed route transit service is present, so that access to transit issues may be explored. A bicycle and pedestrian project acceleration study could be selected in place of a multimodal network plan when a local municipality with population under 10,000 has limited time and budget and would like an abbreviated process to zero in on the top priority projects most likely to move forward to implementation.

Bicycle or Pedestrian Network Plan/or Bicycle and Pedestrian Network Plan Update

What is it? A comprehensive bicycle or pedestrian network plan allows a municipality to set a vision for bicycle or pedestrian transportation in their community, plan for a bicycle or pedestrian network, and identify priority bicycle or pedestrian projects. Creation of a bicycle or pedestrian network plan is likely to be the first step to implementation of bicycle and pedestrian projects and supports a more bicycle-friendly walk-friendly environment.

How is it helpful? Having a plan for a bicycle or pedestrian network and identified projects allows the municipality to better communicate and coordinate their active transportation needs with regional planning organizations and NCDOT during transportation planning and project development. A bicycle or pedestrian planning process also helps with review of existing land use policies to encourage consideration of potential changes to realign local development standards with desired walk-friendly and bicycle-friendly outcomes.

Who is it for? This type of plan is a good option for municipalities that do not have an existing bicycle or pedestrian plan, or their previous plan is at least five years old, and they would like to update it.

Products:

- List of short-term and long-term bicycle and pedestrian improvements and implementation plan
 - Improvements could include point projects such as pedestrian crossing improvements and addressing intersection safety for bicyclists

- Linear project recommendations could include sidewalk improvements, shared-use path improvements and on-road bicycle improvements
- Bicycle or pedestrian network map
- Cutsheets for priority projects, with additional detail and planning level cost estimates for top 4-6 projects

When to choose this type of plan? A local government would pursue a bicycle or pedestrian network plan rather than a multimodal network plan when no fixed route or deviated fixed route transit service is present. A full bicycle or pedestrian network plan allows a municipality to go through more detailed steps in data gathering and stakeholder public engagement as compared with a project acceleration study, so that a larger list of potential projects is considered more fully. A municipality may also select this plan when their existing bicycle or pedestrian plan is more than five years old, and the municipality would like to refresh its priority projects list, account for local growth or changes, and explore new programs and policies to promote walking and bicycling.”

Project Acceleration Plan

What is it? A project acceleration plan is an abbreviated plan that focuses on priority bicycle, pedestrian, and multimodal project identification and project implementation.

How is it helpful? Project acceleration plans focus on efficiently identifying multimodal projects and implementation steps to foster a more walkable, bikeable and transit-friendly environment in communities that might otherwise have difficulty resourcing or funding a multimodal network plan.

Who is it for? A project acceleration plan is meant for municipalities with a population of 9,999 or less.

Products:

- Recommended project inventory organized by category, with cost estimates.
- Prioritized list and maps of short-term and long-term multi-modal improvements.
- 5 to 10 priority project cutsheets.
- Implementation Plan.

When to choose this type of plan? A project acceleration study could be selected in place of a multimodal network plan when a local municipality with population of 9,999 or less has limited time and budget and would like an abbreviated process to zero in on the top priority projects most likely to move forward to implementation. This could also be a good fit for a municipality that has recently completed extensive planning and public and stakeholder engagement and transportation needs evaluation as part of another study (i.e. a comprehensive plan or a CTP) but would like to identify and further prepare for implementation priority bicycle, pedestrian and multimodal projects.

Frequently Asked Questions (FAQ's)

What is the difference in the traditional comprehensive bicycle and pedestrian plan and the project acceleration plans? The traditional bicycle and pedestrian plans take a comprehensive approach evaluating an entire community and providing varied project, policy, program and administration recommendations and implementation strategies. The project acceleration plans are envisioned as a more focused document concentrating on the identification of priority projects that are implementable for smaller communities with more limited resources. The plan development process will be of a much shorter timeframe (around six months) and the final plan document will be of a more minimal length. ([Content Standards for Project Acceleration Plans.](#))

NOTE: A community can apply for only one type of plan in an individual grant cycle.

Can county or regional government agencies apply for funding?

Counties with populations of less than 100,000 may apply on behalf of incorporated communities and/or unincorporated areas within their jurisdiction. County governments with populations greater than 100,000 and regional governments are not eligible to apply, nor are other non-municipal entities.

Can a municipality that already has a plan apply for funding?

Municipalities (and counties with populations of less than 100,000) who currently have a comprehensive bicycle and/or pedestrian plan at least five (5) years old may apply for funding to update their plan. Municipalities may have plans that target only off-road projects, as in a greenway master plan, or just on-road improvements as part of an existing transportation plan and are therefore not viewed as a comprehensive planning document for this planning grant program. Such plans typically do not address elements that are a part of comprehensive planning document, such as, policy, education, enforcement, maintenance, and land use/development issues. To understand what is included in a multimodal network plan, a comprehensive pedestrian and/or bicycle plan, or project acceleration plan, see the "Content Standards" documents provided on the respective plan webpages found on the sidebar: <https://connect.ncdot.gov/municipalities/PlanningGrants/IMD-Multimodal-Planning-Program/Pages/default.aspx>

If a proposal was submitted in a previous grant cycle, can the same proposal be resubmitted?

The application is slightly modified every year to clarify/improve both the application process and the review process. Therefore, a new application form must be submitted to be eligible for consideration each year. All municipalities are encouraged to re-apply. Those municipalities that received funding in previous years may apply for the type of plan, bicycle or pedestrian, for which they did not receive funding in the past.

Can the plan be a project/corridor plan, or focus on a sub-area of a municipality or specific construction project?

Funding is only intended to support the development of a comprehensive bicycle, pedestrian or joint bicycle and pedestrian transportation plan for the entire municipality. However, for the project acceleration plans, there will be a more project identification/implementation emphasis that may focus

attention to certain corridors and areas of a community.

Can the funding be used to develop a bicycle or pedestrian element of other municipal planning efforts?

Any plan developed with these funds must be comprehensive in nature and be a stand-alone bicycle or pedestrian plan. While NCDOT encourages the inclusion of bicycle and pedestrian elements in local comprehensive plans, transportation plans, land use plans, recreation plans, greenway and open space plans, etc., requests for funding to develop such elements are not within the scope of this grant.

Can in-kind services be used for a local match?

In-kind services cannot be used for local participation. The local match must be a cash contribution.

Can other non-municipal funds be used for the local cash match?

Other NCDOT state or federal funds provided to a municipality cannot be used as a local cash match. Funds secured from other state or federal agencies and organizations or businesses may be used for the local match.

Can Powell Bill funds be used for a local match?

No, Powell Bill funds may not be used toward the local match – see [here](#). However, funds secured from state agencies other than NCDOT may be used for a local match.

How much does a plan cost to develop?

Average costs associated with the development of plans vary greatly depending on the size of the municipality and the complexity of issues to be addressed in the plan. Average costs associated with a plan update are 50%-75% of the cost of a standard plan. Cost may vary depending on the extent of the update; however, communities should budget for the maximum estimate. A range of estimated costs for plans developed by consultants is shown below. The cost of all plans funded through this program shall be within these established ranges. After awardee notification, the specific cost of the plan will be determined through discussions between NCDOT and the municipality (or county) and through contract negotiations between NCDOT/municipality/county and the selected consultant.

Population	Estimated Consultant Costs
Less than 10,000 (Project Acceleration Plan)	\$35,000 to \$45,000
Less than 10,000	\$50,000 to \$60,000
10,000 to 25,000	\$50,000 to \$65,000
25,000 to 50,000	\$55,000 to \$70,000
50,000 to 100,000	\$65,000 to \$100,000
Over 100,000	\$85,000 to \$190,000

Note: Average costs associated with a plan update are 50%-75% of the cost of a standard plan. Cost may vary depending on the extent of the update; however, communities should budget for the maximum estimate.

What percent does my town pay?

NCDOT planning grant funds will be provided on a sliding scale, based on municipal (or county) population, as shown in the table below. Neither in-kind services nor other state or federal funds from

NCDOT can be used for local participation.

Municipal Population	DOT Participation	Local Participation
Less than 10,000	90%	10%
10,000 to 25,000	80%	20%
25,000 to 50,000	70%	30%
50,000 to 100,000	60%	40%
Over 100,000	50%	50%

When will selected municipalities/counties receive the funding?

It is anticipated that municipalities/counties will be notified of the planning grant award in early summer. A municipality/county selected for funding must execute a legal agreement with the NCDOT prior to receiving funding authorization. This agreement will outline the responsibilities of each party, the terms and the deliverables.

As described in the *Multimodal Planning Grant Overview* document, NCDOT will utilize prequalified on-call firms to prepare the plans.

The municipality/county will submit a lump sum of their matching funds for this project with the signed agreement. NCDOT will then administer all payments to the consultant preparing the plan. The planning process will begin once (a) the municipal agreement is executed, and local match is received and (b) NCDOT has assigned a consultant to the project and negotiated plan cost.

What is the time frame for executing a municipal agreement between NCDOT and a funded municipality/county?

Once a municipality/county is notified of award, NCDOT will generate a municipal agreement and forward it to the municipality/county for execution. The municipality/county shall submit an executed contract within three months of award notification.

How long will the municipality/county have to complete the plan?

It is anticipated that selected consultants will have twelve months (around 6 to 8 months for the Project Acceleration plans or approximately 6 to 9 months for plan updates) from the date of receipt of an NCDOT written Notice to Proceed to complete the plan. Final timelines will be determined during creation of agreements and finalization of consultant contracts.

How will proposals be selected for funding?

Integrated Mobility Division (IMD) staff will conduct a preliminary review of all applications for completeness and general appropriateness. An Awards Committee will review all proposals that pass the initial screening and will forward their funding recommendations to the NCDOT Board of Transportation for final approval. The Awards Committee will include IMD staff and individuals with professional experience in developing, administering, and / or implementing bicycle plans and pedestrian plans. These individuals will represent municipalities of varying sizes, MPO's and RPO's, COG's and other appropriate agencies and organizations. It is anticipated that the Board of Transportation will approve selected municipalities/counties at their June meeting.

What are the selection criteria?

The NCDOT Planning Grant Awards Committee will review each proposal and evaluate it based on the stated vision, goals and needs of the municipality/county; comprehensiveness of scope; understanding of issues and opportunities; level of local commitment; and, feasibility of successful plan completion. For a comprehensive list of criteria, see the "Selection Criteria" section of the *Multimodal Planning Program Overview* document:

(<https://connect.ncdot.gov/municipalities/PlanningGrants/Documents/Multimodal%20Planning%20Grant%20Program%20Overview.pdf>).

What type of assistance is available to local staff preparing an application?

Staff from the NCDOT Integrated Mobility Division (IMD) will be available to answer questions and provide guidance. (Bryan Lopez at balopez@ncdot.gov , 919-707-2606). MPO and RPO planning staff may also be able to provide helpful information or staff assistance. In addition, content standards, a list of past awardees, completed plans, and links to Web sites that provide general information on bicycle and pedestrian planning may be found on the Multimodal Planning Program webpage:

(<https://connect.ncdot.gov/municipalities/PlanningGrants/IMD-Multimodal-Planning-Program/Pages/default.aspx>).

Is the funding provided on an "all or nothing" basis?

Yes. Applications for funding for a comprehensive municipal bicycle or pedestrian plan from a municipality/county that can provide the necessary level and type of matching funds are the only type of proposals that will be considered.

What does a bicycle plan or pedestrian plan look like?

A list of plans may be found on the Multimodal Planning Program page

(<https://connect.ncdot.gov/municipalities/PlanningGrants/Pages/Grant-Recipients-and-Completed-Plans.aspx>).

Can the funds be used for construction of sidewalks, greenway trails or other capital improvements projects?

These funds are made available for the development of comprehensive bicycle and/or pedestrian transportation plans only. Proposals detailing specific construction projects are not eligible for consideration.

Is there a "live person" available who can answer my questions?

Yes, you can contact: Bryan Lopez (919) 707-2606 / balopez@ncdot.gov

Subject: Albemarle RPO - Draft 2026-2035 STIP
Attachments: P7 Quantitative Scores - All Projects 1-29-25 for Transmittal (1) - Copy.xlsx; Comparison of ARPO STI Projects in Current 24-33 STIP and Draft 26-35 STIP.pdf; NCDOT Draft 2026-2035 STIP (2) - Copy.xlsx
Importance: High

Good morning,

NCDOT has released the draft 2026-2035 State Transportation Improvement Program (STIP), as well as the final results of Prioritization 7.0.

The STIP is a multi-year capital improvement document which denotes the scheduling and funding of construction projects across the state over a minimum 4-year time period as required by Federal law. North Carolina's STIP covers a 10-year period, with the first five years (2026-2030 in this version) referred to as the delivery STIP and the latter five years (2031-2035 in this version) as the developmental STIP.

The development of the Draft 2026-2035 STIP considers numerous factors:

- Anticipated revenue for the 2026-2035 timeframe
- Funding availability for the 22 STI funding categories
- Latest project cost estimates
- Latest project schedules
- Prioritization 7.0 results

As many of you know, NCDOT has seen a significant increase in project costs over the past several years – a total of approximately \$11 billion since the adoption of the 2024-2033 STIP in June 2023. As a result of these cost increases, most STI categories became overprogrammed, with the exception of four: Statewide Mobility, Region C, Region D, and Division 6.

State and federal laws require NCDOT to be fiscally constrained (by STI funding category and by fiscal year) when releasing a STIP. To ensure compliance with these laws, the following steps were taken:

1. Projects were only selected for funding in the Statewide Mobility, Region C, Region D, and Division 6 categories in Prioritization 7.0.
2. Many projects included in the current 2024-2033 STIP were delayed, resulting in some projects currently “Scheduled for Delivery” to become “Funded for Preliminary Engineering Only”.

What does this mean for the Albemarle RPO?

1. The Albemarle RPO is located within Region A and Division 1 – Both of which were overprogrammed in Prioritization 7.0. Additionally, none of ARPO’s projects were selected for funding in the Statewide Mobility Category. As such, **no ARPO Prioritization 7.0 project submittals were selected for funding.** The final results of Prioritization 7.0 (which includes PO & Division Local Input Point assignments) are attached.
2. The STIP Unit considered many factors in determining revised schedules including (but not limited to): Current project delivery schedule (including whether right-of-way acquisition is underway or has been completed), seniority approach (P3 highest-to-lowest score, P4 highest-to-lowest score, P5 highest-to-lowest score), revised seniority approach as agreed to by applicable MPO/RPO and Division, project cost, project sequencing, whether the project has been awarded a federal discretionary grant, funding availability, etc. The Albemarle RPO had 14 committed STI (Prioritization) projects in the 2024-2033 STIP. Seven of these projects remain committed in the Draft STIP and have no changes in their delivery schedule. Four of these projects also remain committed in the Draft STIP, but have been delayed. Three projects are now funded for preliminary engineering only, meaning they are no longer scheduled for delivery. A comparison of ARPO STI Projects in the Current 2024-2033 STIP and the Draft 2026-2035 STIP is attached, as well as copy of the entire Draft 2026-2035 STIP.

Next Steps

NCDOT is currently holding a public comment period on the STIP until April 4, 2025. The public can submit comments online by visiting: <https://publicinput.com/2026-2035-stip>. Additionally, each Division will hold a week-long public drop-in session between February 17, 2025 and March 17, 2025. (drop-in schedules can be found here: <https://www.ncdot.gov/initiatives-policies/Transportation/stip/development/Pages/public-input.aspx>)

Between the Draft and Final STIP, NCDOT staff will continue to receive updated cost estimates, bid awards, funding requests for ongoing projects, and schedule changes. These will be incorporated into the Final STIP before the Board of Transportation takes action to adopt it – which is anticipated to take place in July 2025. Since fiscal constraint must be maintained, **there may be additional changes as a result.**

If anyone has any questions or would like to discuss further, please do not hesitate to call or email me. I plan to have more information about the Draft STIP, and the final results of Prioritization 7.0 available at our next RTCC & RTAC meetings.

Thanks,

Sam Singleton

**ALBEMARLE RURAL PLANNING ORGANIZATION
RTCC & RTAC MEETING MINUTES
WEDNESDAY, APRIL 23, 2025**

Minutes of the Rural Technical Coordinating Committee (RTCC) Meeting – 10:00 AM

Call to Order

The Albemarle RPO Rural Transportation Advisory Committee (RTCC) met in regular session on Wednesday, April 23, 2025. The meeting was held in virtual format via Zoom. The RTAC meeting was opened and called to order by RTAC Vice-Chairman Randel Mathews at 10:00 AM.

Roll Call

ARPO Interim Director Sam Singleton determined a quorum was met with the following members in attendance: Amber Curling, Camden County; Kevin Howard, Chowan County; Rebecca Gay, Currituck County; Shelley Cox, Pasquotank County; Frank Heath, Perquimans County; Brandon Shoaf, Perquimans County; David Clegg, Tyrrell County; Curtis Potter, Washington County; Rhett White, Town of Columbia; Joe Heard, Duck; Wes Haskett, Southern Shores; Wongoo Lee, TPD

Ethics Awareness & Conflict of Interest Reminder

Sam Singleton read the ethics awareness and conflict of interest reminder (G.S. 138A-15 (e)) to both committees. No conflicts were disclosed.

Agenda Approval

Rhett White motioned to approve the agenda, Wes Haskett seconded the motion. With no further discussion, the motion passed unanimously.

Election of Chair & Vice-Chair for 2025 & 2026

Sam Singleton said that the ARPO Bylaws require the RTCC to have a Chair and Vice-Chair, which are to be selected by majority vote for a term of two years. Mr. Singleton said that the Chair and Vice-Chair must be selected at the first meeting of every odd calendar year, and that there is no limit as to how many consecutive terms they can serve.

Frank Heath motioned Rhett White to be Chair which was seconded by Shelley Cox; with no further discussion the motion passed unanimously. Frank Heath motioned Shelley Cox; to be Vice-Chair which was seconded by Curtis Potter; with no further discussion the motion passed unanimously

Approval of Previous Meeting Minutes

Wes Haskett made a motion to approve the of January 22, 2025, regular meeting minutes. Vice-Chair Shelley Cox seconded the motion. With no further discussion, the motion passed unanimously.

**ALBEMARLE RURAL PLANNING ORGANIZATION
RTCC & RTAC MEETING MINUTES
WEDNESDAY, APRIL 23, 2025**

Approval of FY 2025-2026 PWP

Sam Singleton said that the Planning Work Program (PWP) is a funding contract between the Albemarle Rural Planning Organization and the North Carolina Department of Transportation, and noted that the PWP lists planning priorities anticipated by ARPO throughout the fiscal year and outlines expenses needed for certain work tasks.

Chairman Rhett White made a motion to approve the FY 2025-2026 Planning Work Program for the Albemarle RPO. Vice-Chair Shelley Cox seconded the motion. With no further discussion, the motion passed unanimously.

Ethics Awareness & Conflict of Interest Reminder

Sam Singleton read the ethics awareness and conflict of interest reminder (G.S. 138A-15 (e)) to both committees. No conflicts were disclosed.

Agenda Approval

Carol Phelps, motioned to approve the agenda, Larry McLaughlin seconded the motion. With no further discussion, the motion passed unanimously.

Election of Chair & Vice-Chair for 2025 & 2026

Sam Singleton said that the ARPO Bylaws require the RTAC to have a Chair and Vice-Chair, which are to be selected by majority vote for a term of two years. Mr. Singleton said that the Chair and Vice-Chair must be selected at the first meeting of every odd calendar year, and that there is no limit as to how many consecutive terms they can serve. Mr. Singleton noted that the RTAC Chair and Vice-Chair must be County Elected Officials, as only County RTAC members are permitted to vote.

Larry McLaughlin motioned Lloyd Griffin III to be Chair which was seconded by Randle Mathews; with no further discussion the motion passed unanimously. Lloyd Griffin III motioned Randal Mathews to be Vice-Chair which was seconded by Larry McLaughlin; with no further discussion the motion passed unanimously

Approval of Previous Meeting Minutes

Vice-Chairman Randal Mathews made a motion to approve the of January 22, 2025, regular meeting minutes. Carol Phelps seconded the motion. With no further discussion, the motion passed unanimously.
